

Safety Data Sheet
according 1907/2006/EC (REACH), 2015/830/EU

Bloom Booster

Date : 01/09/2013

Version No. 3

Review date: 25/06/19

1 SECTION 1: IDENTIFICATION OF THE SUBSTANCE/ MIXTURE AND OF THE COMPANY/ UNDERTAKING

Product identifier

1.1 A. Product name: BLOOM BOOSTER

**1.2 Relevant identified uses of
the substance or mixture
and uses advised against**

Relevant identified uses of the substance or mixture:

Bloom Booster is a growth and flowering activator for plants in compliance with the European regulation on organic agriculture No. 834/2007.

Uses advised against:

Any use not specified in this section or in section 7.3

Use Descriptor System (REACH): No data available (not applicable : IK).

1.3 Details of the supplier of the safety data sheet

| | |
|-------------------------|-----------------------------------|
| Supplier identification | Terra Aquatica Sarl (GHE) |
| Address | Route de Lecture, 32500 Fleurance |
| Phone number | +33 (0)5 62 06 08 30 |
| E-mail address | info@eurohydro.com |

1.4 Emergency telephone number

Medical services/ emergency services **15**

Fire and rescue services **18**

Police **17**

1.4 EU Emergency call line **112**

Toxicological Information **01 45 41 59 59**

2 SECTION 2 : HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture

Reg. 1272/2008/CLP In accordance with Regulation No. 1272/2008 (CLP), the product is not considered dangerous (IK).

Additional information :

| | |
|--------------------------|------|
| Hazards for humans | None |
| Environmental hazards | None |
| Physico-chemical hazards | None |
| Other hazards | None |

Labelling elements

Labelling according to Regulation (EC) No 1272/2008 [CLP]

| | | |
|------------|---|---|
| 2.2 | Hazard pictograms | None |
| | Signal word | None |
| | Hazardous substances to be indicated on the label | None |
| | Hazard statements H: | None |
| | Precautionary statements P: | Phrases P P102 Keep out of reach of children |
| 2.3 | Other hazards | |
| | Reg. 1272/2008/CLP | None |

3 SECTION 3 : COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Substances Non applicable

3.2 Mixtures Name Bloom Booster
Bloom Booster is 100% organic growth and flowering activator for plants based on plant extracts authorised by the EC standard on organic farming No. 834/2007.

4 SECTION 4 : FIRST AID MEASURES

No known incidents of damage to persons who have used this product.

However, in case of doubt or if symptoms persist, seek medical attention. Do not give anything by mouth to an unconscious person. The general measures described below should be adopted:

4.1

Description of first aid measures

| | |
|------------------------|---|
| Following eye contact | Do not allow the victim to rub their eyes or keep their eyes closed. Immediately flush eyes, including under the eyelids, with plenty of clean, clear water for at least 15 minutes. Check if the victim is wearing contact lenses and if so, remove them. If irritation occurs or persists, consult a doctor. |
| Following skin contact | Rinse thoroughly with water for at least 15 minutes. Remove contaminated clothing. If the skin is red or puffy, if irritation persists, consult a doctor. |
| Following ingestion | Do not induce vomiting. Rinse the mouth with water. If a person has swallowed this product and is conscious, give small amounts of water to drink to dilute the product. Call a doctor if adverse health effects occur. |
| Following inhalation | Under normal conditions of use, inhalation is unlikely. If inhaled, move to fresh air. In case of breathing difficulties, consult a doctor as soon as possible. |

| | |
|------------------------------------|--|
| Self-protection of the first aider | Depending on the first aid context, wear appropriate protective equipment including a mask or filtered respirator. Always wear protective gloves and a resuscitation mask in case of artificial respiration. Wash hands thoroughly after first aid. If your clothing is contaminated with a chemical substance during first aid administration, change it. |
| Other information | For further details of first aid administration, including but not limited to more serious health effects, the doctor may consult the Toxicological Information Centre, hotline: see section 1.4 |
| 4.2 | Most important symptoms and effects, both acute and delayed |
| | Bloom Booster can cause mild diarrhoea due to the enzymatic process with intestinal bacteria, if ingested in large quantities or in concentrated form. |
| 4.3 | Indication of any immediate medical attention and special treatment needed |
| | Note to the attending physician |
| | No known data |

5 SECTION 5 : FIREFIGHTING MEASURES

| | | |
|------------|--|---|
| 5.1 | Extinguishing media | <p>The product is not flammable. Fire hazard low due to the flammability characteristics of the product under normal storage, handling and use conditions.</p> <p>Suitable extinguishing media for a surrounding fire:</p> <p>In the event of continued combustion, caused by improper handling, storage or use, the following extinguishing media may be used: carbon dioxide (CO₂), foam, chemical powders, and in the event of a widespread fire, also water spray.</p> <p>Inappropriate extinguishing media:</p> <p>In case of fire, do not use: Water jet</p> |
| 5.2 | Special hazards arising from the substance or mixture | <p>Hazards due to the substance or mixture:</p> <p>Given its flammability characteristics, the product does not present a specific risk of fire or explosion under normal storage, handling and use conditions.</p> <p>Risk related to thermal decomposition products:</p> <p>A fire in the surrounding area will often produce thick black smoke. Exposure to compositional products may pose health risks. Do not breathe dust, vapours or fumes released by the combustion of products.</p> |
| 5.3 | Advice for firefighters | <p><u>Protective actions to be taken when fighting fires</u></p> <p>Quickly isolate the area by evacuating all persons from the area near the incident in the event of a fire. Do not take any action involving personal risk or in the absence of adequate training. Keep containers away from fire if it can be done without risk. Use water or spray to keep containers exposed to fire cool.</p> <p><u>Appropriate protective equipment</u></p> <p>The product is not combustible. In the event of a fire in the surrounding area, appropriate extinguishing media and protective equipment may be used for the other materials present (full protective clothing and personal respiratory equipment), in accordance with EN469 for a basic level of protection against chemical incidents. Have a minimum of emergency facilities or intervention elements (fire blankets, medicine kit, etc.) in accordance with Directive 89/654/EC.</p> |

Other information

Special firefighting procedures: Keep cans away from the fire if it can be done safely. Fire can cause smoke or toxic gases. Firefighters must wear a mask with a closed-circuit breathing system and protective clothing and avoid contact with eyes or skin. Approach the fire with a braced wind. If large quantities of product are involved, do not use a hose with fittings. Be careful of water flows resulting from firefighting. Do not discharge fire-extinguishing material into drains or sewers.

6 SECTION 6 : ACCIDENTAL RELEASE MESURES

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel No action should be taken that involves an individual risk or in the absence of appropriate training. Ensure proper ventilation. Wear gloves and safety glasses to avoid stains or risk of splashing.

For emergency responders Workers will be equipped with personal protective equipment appropriate to the possible hazards.
(See section 8)

6.2 Environmental precautions The product is biodegradable. However, avoid contamination of sewers, surface water and groundwater. If this happens, inform the competent authorities.

6.3 Methods and material for containment and cleaning up

For containment: Sewer coverage

For cleaning up: Collect the spilled product by mechanical means and remove any residues by water jets. Provide adequate ventilation at the location of the spill. The disposal of the contaminated material must be carried out in accordance with the provisions of point 13.
Do not put the spilled product in contact with combustible or incompatible materials. Cleaning personnel must wear equipment to protect skin and eyes. Small amounts of product can be moped with inert, non-combustible materials such as sand or soil. These materials must then be placed in appropriate containers. Do not dispose of in gutters or sewers. Do not discard any residue.

6.4 Reference to other sections Collect the remains in an identified container: see point 13 for disposal.
Personal protective equipment: see section 8
Withdrawal considerations: see section 13.
See section 1 for emergency contact information.

7 SECTION 7 : HANDLING AND STORAGE

Precautions for safe handling

7.1 Avoid the formation of suspended particles and the dispersion of the product in the air.
Use adequate ventilation in areas where suspended particles develop.
Keep away from flames and sparks. Do not smoke. Keep away from heat sources and other sources of fire.

Advice on professional hygiene in general:

It is prohibited to eat, drink or smoke in areas where this product is handled, stored

or used. It is recommended that staff wash their hands and face before eating, drinking or smoking. Remove contaminated clothing and protective equipment before entering a food court. See also section 8 for more information on hygiene measures.

| | | |
|------------|---|---|
| 7.2 | Conditions for safe storage, including any incompatibilities | <p>Store in accordance with local regulations. Store in the original container away from direct sunlight in a dry, cool and well-ventilated place away from incompatible materials (see section 10). Ensure adequate local ventilation or extraction.</p> <p>Store in a cool, dry place. Keep the container tightly closed in a dry and well-ventilated place.</p> <p>Close containers before and after each use to avoid sources of moisture or heat.</p> <p>Store in areas with impermeable pavement.</p> |
| 7.3 | Specific end use(s) | <p>No specific end uses.</p> <p>Good practices: keep in closed containers. Close containers before and after each use to avoid sources of moisture or heat. Store in areas with waterproof pavement.</p> <p>The ingredients may lose their effectiveness if the product is stored in a too hot place, also avoid temperatures below -15°C.</p> |

8 SECTION 8 : EXHIBITION CONTROLS/INDIVIDUAL PROTECTION

| | | |
|------------|---|--|
| 8.1 | Control parameters | <p>Not applicable</p> <p>Use good industrial hygiene practices.</p> |
| 8.2 | Exposure controls | |
| | Appropriate engineering controls | No particular control |
| | Individual protection measures, such as personal protective equipment | <p>Use individual protections placed on the market in accordance with the provisions of Regulation (EU) 2016/425 of the European Parliament and of the Council of 9 March 2016.</p> <p>Personal protective equipment must be adapted to the risk, kept clean and properly maintained in accordance with the provisions of the Labour Code.</p> |
| | Eye/face protection | It is necessary to wear safety glasses that comply with the NF EN166 standard before handling any products to avoid risks of splashing. |
| | Skin protection | <p>Hands: Wear suitable protective gloves in case of prolonged or repeated contact with the product to avoid stains.</p> <p>Use suitable chemical-resistant protective gloves in accordance with NF EN374.</p> |
| | Respiratory protection | Ensure adequate ventilation, especially in enclosed areas. Respiratory protection device not required. |
| | Body protection | Not required |
| | Environmental exposure controls | No data available. Biodegradable product |

9 SECTION 9 : PHYSICAL AND CHEMICAL PROPERTIES

| | | |
|------------|--|--|
| 9.1 | Information on basic physical and chemical properties | |
| | Appearance | <p>Physical state: all Bloom Booster compounds are in aqueous solution.</p> <p>Color: Dark Brown</p> |
| | Odour | Sulphur |
| | pH | 4 |
| | Melting point | Not applicable |

| | |
|--|------------------|
| Freezing point | Not determined |
| Initial boiling point and boiling range | Not determined |
| Flash point | Not determined |
| Evaporation rate | Not determined |
| Flammability (solid, gas) | Non inflammable |
| Upper/lower flammability or explosive limits | Not applicable |
| Vapour pressure | Not determined |
| Vapour density | Not determined |
| Relative density | 1.12 |
| Solubility(ies) 20°C | Entirely soluble |
| Partition coefficient: n-octanol/water | Not determined |
| Auto-ignition temperature | Not determined |
| Decomposition temperature | Not determined |
| Viscosity | Not determined |
| Explosive properties | Not determined |
| Oxidising properties | Not determined |
| Refraction index | Not determined |
| Rotary power | Not determined |

9.2

Other information

No other information

10 SECTION 10 : STABILITY AND REACTIVITY

| | | |
|-------------|---|--|
| 10.1 | Reactivity | Stable. No particular risk of reaction with other materials under normal conditions of use. |
| 10.2 | Chemical stability | Bloom Booster is stable at room temperature in closed packages and under normal storage and handling conditions. No hazardous polymerization can be produced by any of these components |
| 10.3 | Possibility of hazardous reactions | No risk of dangerous reactions under normal use and storage conditions. |
| 10.4 | Conditions to avoid | No special conditions to avoid. |
| 10.5 | Incompatible materials | No specific data. |
| 10.6 | Hazardous decomposition products | Under normal storage and use conditions, no hazardous decomposition products should occur. |

11 SECTION 11 : TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects

| | |
|--|---|
| a) acute toxicity; | In view of the available data, the classification criteria are not met. |
| (b) skin corrosion/irritation; | |
| (c) serious eye damage/irritation; | No known health damage resulting from exposure to the product. |
| (d) respiratory or skin sensitisation; | No known toxicological effects |
| (e) germ cell mutagenicity; | |
| (f) carcinogenicity; | |

| | |
|---|--|
| (g) reproductive toxicity; (h) STOT-single exposure; (i) STOT-repeated exposure; (j) aspiration hazard Symptoms related to the physical, chemical and toxicological characteristics | Ingestion: May potentially cause mild diarrhoea if ingested in large quantities or in concentrated form. Inhalation: unlikely route of exposure under normal conditions of use. No known significant effects or critical hazards. Skin Exposure: No known significant effects or critical hazards. Wash with water Eye exposure: Slight irritation possible. No known significant effects or critical hazards. Wash with water |
| Delayed and immediate effects as well as chronic effects from short- and long-term exposure | No known effect |
| Interactive effects | No data available |
| Absence of specific data | No data available |
| Mixtures | No data available |
| Mixture versus substance information | Mixture not containing substances subject to registration. No known adverse effects or symptoms resulting from exposure to the mixture or its components. |
| Other information | Comply with good industrial hygiene practices |

12 SECTION 12 : ECOLOGICAL INFORMATION

| | | |
|-------------|---|--|
| 12.1 | Toxicity | Not applicable |
| 12.2 | Persistence and degradability | No data available to date to the best of our knowledge |
| 12.3 | Bioaccumulative potential | No data available to date to the best of our knowledge |
| 12.4 | Mobility in soil | No data available to date to the best of our knowledge. Waste generation should be avoided or minimized as much as possible, and the product should not be discharged into sewers or waterways. |
| 12.5 | Results of PBT and vPvB assessment | No data available to date to the best of our knowledge |
| 12.6 | Other adverse effects | No data available to date to the best of our knowledge |

13 SECTION 13 : DISPOSAL CONSIDERATIONS

| | | |
|-------------|--|--|
| | Waste treatment methods | Do not discharge into sewers or waterways. Waste: Waste management is carried out without endangering human health and without harming the environment, including without creating a risk to water, air, soil, fauna and flora. Recycle or dispose of in accordance with current legislation, preferably by an approved collector or company. |
| 13.1 | | Disposal of the product/packaging: it is prohibited to discharge it into sewers or waterways. Residues and empty containers must be handled and disposed of in accordance with the relevant local/national legislation in force. Follow the provisions of Directive 2008/98/EC on waste management. Recover the product as much as possible. Follow local legislation. |
| | Waste codes / waste designations according to LoW: | Not applicable |

14 SECTION 14 : TRANSPORT INFORMATION

Non-hazardous transport. In the event of an accident and product spillage, proceed as described in point 6

| | | |
|------|--|---|
| 14.1 | UN number | Non-hazardous transport |
| 14.2 | UN proper shipping name | Non-hazardous transport |
| 14.3 | Transport hazard class(es) | Non-hazardous transport |
| | ADR | Non-hazardous transport |
| | IMDG | Non-hazardous transport |
| | OACI/IATA | |
| 14.4 | Packing group | Non-hazardous transport |
| 14.5 | Environmental hazards | Non-hazardous transport |
| 14.6 | Special precautions for user | Non-hazardous transport |
| 14.7 | Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code | Non applicable/ Non-hazardous transport |

15 SECTION 15 :REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture

| | | |
|------|-----------------------------------|--|
| 15.1 | Reg. 1272/2008/CE | The product does not contain substances that can be classified as carcinogenic. 1 or 2 according to Reg.1272/2008/EC and subsequent updates. |
| | Reg. 830/2015/CE (REACH) | Not applicable |
| | Special hazards | To our knowledge, none. |
| 15.2 | Chemical safety assessment | Evaluation not carried out |

16 SECTION 16 : OTHER INFORMATION

Abbreviations and acronyms:

ETA = Acute Toxicity Estimation
CLP = Regulation 1272/2008/EC on classification, labelling and packaging of substances and mixtures
DNEL = Derived no-effect dose
DMEL = Derived no-effect dose
EUH = Specific hazard statement CLP
CPSE = Predicted no-effect concentration
RRN = REACH registration number
PTB = Persistent, Toxic and Bioaccumulative
tPtB = Very persistent and very bioaccumulative
bw = Body mass
